Description:

One of MADs original Usual Gang of Idiots, Wally Wood specialized in illustrated parodes of science fiction and war stories, as well as slick

Hollywood films, all written by Harvey Kurtzman. This new title collects all his work from the original 23 issues of the MAD comic book, including hilarious takes on Superman, Batman, Little Orphan Annie, Flash Gordon, Prince Valiant, Julius Caesar, and movies like The Wild One, The Caine Mutiny and On the Waterfront. Collects stories from MAD #1-23.

These are great reprints from the great and early original MAD comics. If you've never seen this stuff before this is a great place to start, and if you're already familiar it's a great place to revisit these stories (I own the Russ Cochran large HC reprints, and for a while I owned some of the original art from these early stories). These are simply great books at a great price (there are also books on Will Elder and Jack Davis - I recommend them all). The stories are printed comic book size and in full color, looking like mint copies of the original comics. The pages are not printed from pics of old comics, but fresh crisp blacks and clean, just right colors. Great printing! 158 Pages of WOW Wally Wood art and fantastic Kurtzman stories. HIGHLY Recommended for new or old readers of MAD. I'm putting my three copies on the shelf behind my drawing board for easy and fast reference.
